EXAMINER'S AMENDMENT

The following is an examiner's statement of reasons for allowance: the prior art does not teach or disclose a ballast, comprising an output circuit coupled to an inverter output terminal, the output circuit comprising first and second output connections for coupling to at least one gas discharge lamp; a fault detection circuit coupled between the output circuit and the inverter, wherein the fault detection circuit is operable to monitor a first signal and a second signal within the output circuit, to set a fault threshold in dependence on the second signal, and in response to the first signal exceeding the fault threshold, to issue a shutdown command directing the inverter to cease operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Vu whose telephone number is (571) 272-1831. The examiner can normally be reached on M-F 8am-430pm.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
